Teams take turns throwing darts at the Dart Up dartboard, and the opposing team complete the associated challenge or forfeit, with the ultimate goal of getting the other team drunk. The throwers get to choose who complete the tasks on the opposite team.

Normal

Players take turns throwing three darts at a board, aiming for high scores. The goal is to reach zero or a set target score, like 301 or 501, by subtracting points after each throw. The first to hit this target wins, and optional drinking rules can be added for a drinking game version.
